

Table, Image, Appendix Directory

A guide to the Cedar Creek Watershed Management Plan

Table	Title	Page
1	Cedar Creek Watershed Acres	5
2	Watershed Characteristics	11
3	Soil Series Descriptions	14
4	Land Use Percentages	17
5	Conservation Practices in the Watershed	17
6	Conservation Practices – existing and goals	26
7	Competine Conservation Practices – existing and goals	26
8	Wolf Conservation Practices – existing and goals	28
9	Buckeye Conservation Practices – existing and goals	30
10	Implementation Schedule Years 1-5	33
11	Implementation Schedule Years 6-10	33
12	Implementation Schedule Years 11 – 15	34
13	Implementation Schedule Years 16 – 20	34
14	Stream water monitoring site locations	35
15	Outreach and Engagement Activities	39
16	Estimated Resource Needs	41
17	Estimated Resource Needs for BMPs	42
18	Estimated Resource Needs for BMPs – 5 year increments	43
19	Annualized Cost of BMPs	43
20	Public Funding Sources	45
21	Private Funding Sources	47
22	Roles and Responsibilities	49

Image	Title	Page
1	What is a watershed?	5
2	WQI Demonstration Projects Map	7
3	Competine Conservation Practices Over Time	8
4	Watershed Planning Process	9
5	Watershed Map	9
6	Annual Precipitation Trends	12
7	Growing Season Precipitation Trends	12
8	Project Area Soils	13
9	Wolf Soils	14
10	Competine Creek	14
11	Buckeye Soils	14
12	Soil Map – Project Area	15
13	Watershed Land Use	17
14	Iowa Population Growth by County	18
15	Watershed Location	19
16	ACPF Framework	21
17	Nitrate and Phosphorous Reduction by Practice	22
18	Competine Priority Areas	27
19	Wolf Priority Areas	29
20	Buckeye Priority Areas	31
21	Stream Water Monitoring Sites	36

Appendices
Appendix A – Resources and References
Appendix B – Community Outreach and Input
Appendix C – ACPF Sub-watershed Maps
Appendix D – RASCAL maps
Appendix E – Self Evaluation Worksheet
